

# Water Resistant Resins

## Industries Best Moisture & Water Resistant Bonds

ChromaScape maintains complete control of the manufacturing process of our resins which ensures the highest quality for our customers. Our resins meet all FDA indirect food contact requirements and federal and state regulations. We will work with you to evaluate your plant's product mix to determine which resin best meets your needs.

We have three lines from which to choose.

**WaterTITE™**

**60% Solids • Highest Solids on the Market**

This product is ideal for decreasing inventory, reducing freight costs and lessening batch cost. WaterTite™ offers an exceptional waterproof bond.

**waterguard™**

**50% Solids**

This product is excellent for providing a dependable waterproofing bond. WaterGuard is ideal for waterproof adhesive (WPA) requirements.

**Ecofi™**

**40% Solids**

This product is our economy, water-resistant resin. Ecofi™ is best for plants that have moisture resistant adhesive (MRA) needs.
